EXPERIENCE

TECHNICAL DEVELOPMENT LEAD

November 2021 - Present

SERVO, St George UT

- **Server Migration:** Migrated operations from our prototype hardware to a production server resulting in improved reliability, and enhanced system scalability to support growing user demands.
- **Network Optimization:** Developed and implemented a custom solution to optimize data transmission, significantly reducing network load and improving system efficiency.

LEAD FIELD TECHNICIAN

April 2019 - November 2021

Ease Window Cleaning, Logan UT

- **Performed Residential Window Cleaning:** Delivered high-quality window cleaning services for a diverse clientele, including single-family homes, apartment complexes, and commercial buildings.
 - **Customer Service Excellence:** Received over 25 five-star ratings from customers for professionalism, attention to detail, and friendly service.
 - **Safety and Compliance:** Maintained a spotless safety record by implementing best practices and continuous training regarding ladder usage and OSHA compliance while on job sites.
 - **Reliability and Timeliness:** Demonstrated consistent punctuality and dependability, ensuring all appointments were completed on time. Coordinated with customers to arrange convenient service times, maintaining a strong record of reliability and meeting customer expectations.
 - **Equipment Maintenance:** Regularly maintained, and stocked a fleet of 5 trucks and vans with solution, sponges, squeegee rubber, poles, and pressure washers, ensuring optimal performance and longevity.
 - **Problem-Solving Skills:** Identified and addressed unique cleaning challenges, such as hard-to-reach windows, hard water treatment, and adverse weather conditions, with innovative solutions.
 - **Team Collaboration:** Worked collaboratively with other technicians to complete larger projects and provided training and mentorship to new hires to ensure consistent service quality.
