Spencer Heywood

Software Development | Web Applications
Clinton, New Jersey, United States

Summary

Software Developer with a proven track record in business innovation and software development. Skilled in leading cross-functional teams, optimizing systems, and integrating advanced technologies like AWS, Google APIs, and Stripe. Fluent in English and Spanish, passionate about agile methodologies, and committed to delivering efficient, user-centric solutions.

Experience

Servo

Founder & Technical Product Owner

April 2021 - Present (3 years 5 months)

Jersey City, New Jersey, United States

Business Initiative: Led the transition from Shopify to our own server infrastructure achieving a 90.7% reduction in Technical Cost per Session (TCPS), lowering it from \$0.41 to \$0.038 within 8 months.

Achievements: Awarded AWS Activate Founders credit for bootstrapped startups.

Leadership & Support: Defined product roadmap with feature requirements and testing criteria, leading a team of 5 specialist developers to successfully implement over 50 new platform features.

Project Management: Collaborated as the point of contact for 13 partner companies to assess requirements, align on priorities, and communicate progress throughout the development life cycle.

Technical Contributions:

-Designed and implemented the site-wide booking life-cycle providing an underlying structure for peripheral functions such as payment processing / distribution and fulfillment tracking.

-Developed a secure vendor portal with robust user authentication and a sophisticated onboarding flow.

Wrote a custom image compression algorithm reducing network loads by up to 95%.

-Migrated operations from our prototype hardware to a Dell Optiplex server, resulting in a 1100% increase in read speeds, improved reliability, and enhanced system scalability to support growing user demands.

App Academy

Student Software Engineer

August 2023 - February 2024 (7 months)

New York, United States

- Intensive 16-week full-stack software development bootcamp.
- Committed over 1000 hours in intensive coursework covering all phases of full-stack software development.

Technologies: React/Redux, JavaScript, Python, Ruby on Rails, HTML, CSS, PostgreSQL, MongoDB, Express, Node.js, Amazon S3, Git, Render, Postman.

Ease Window Cleaning

Founder & Operations Director

April 2019 - November 2021 (2 years 8 months)

Logan, Utah, United States

- Successfully negotiated two strategic acquisitions, dramatically expanding the company's market presence and operational capabilities.
- Designed and developed a custom website solution that automated 80% of the quoting process and boosted online lead conversions by nearly 400%
- Coordinated a team of 20 employees and oversaw the maintenance and utilization of 6 company vehicles.
