Coursework in Management Information Systems

Utah State University

EXPERIENCE

TECHNICAL PRODUCT OWNER

December 2023 - Present

SERVO, Jersey City NJ (Remote)

- Implemented **WebSockets** to enable real-time communication between the front-end UI and back-end functions, enhancing user interactivity and responsiveness.
- Collaborated with over 10 stakeholder companies, 4 developers, and designers to gather requirements, align on priorities, and communicate progress.
- Frequently created and maintained graphical user interfaces (GUIs) using Rails, **AJAX**, and **JavaScript**.
- Worked extensively with various **Linux**-based systems, implementing updates to production servers with minimal downtime and using **shell scripts** for automation.

FRONTEND DEVELOPER

November 2021 - June 2022

SERVO, St. George UT (Hybrid)

- Proactively proposed and developed new features and improvements, collaborating with a multidisciplinary development team.
- Conducted thorough **testing** of newly developed software, identifying, tracking, documenting, and collaborating to resolve bugs, ensuring high-quality and reliable product releases.
