Strategic Contributions

- **Business Initiative:** Led the transition from Shopify to our own server infrastructure achieving a 90.7% reduction in Technical Cost per Session (TCPS), lowering it from \$0.41 to \$0.04 within 8 months.
- **Leadership & Support:** Defined product roadmap with feature requirements and testing criteria, leading a team of 5 specialist developers to successfully implement over 50 new platform features.
- **Project Management:** Collaborated as the point of contact for 13 partner companies to assess requirements, align on priorities, and communicate progress throughout the development life cycle.

Technical Contributions

- **System Architecture:** Designed and implemented the site-wide booking life-cycle, underpinning payment processing, payment distribution, and fulfillment tracking.
 - **Network Optimization:** Wrote a custom image compression algorithm reducing network loads by up to 95% and significantly reducing page load time.
 - **Server Migration and Optimization:** Migrated operations from our prototype hardware to a production server, resulting in a 1100% increase in read speed, improved reliability, and enhanced system scalability.
