EXPERIENCE

TECHNICAL PRODUCT OWNER

November 2023 - Present

SERVO, Jersey City NJ (Remote)

- Defined product roadmap with feature requirements and testing criteria for over 50 new platform features.
- Collaborated as the point of contact for 13 partner companies to assess requirements, align on priorities, and communicate progress throughout the agile development life cycle.
- Developed tools, collected data, and provided analysis to support prominent business initiatives.
- Oversaw progress across the product life cycle ensuring adherence to legal and security policies.

FRONTEND DEVELOPER

November 2021 - June 2022

SERVO, St. George UT (Hybrid)

- Frequently created and maintained intuitive graphical user interfaces (GUIs) for various user-facing pages.
- Conducted thorough testing of newly developed software, identifying, tracking, documenting, and collaborating to resolve bugs, ensuring high-quality and reliable product releases.
- Proactively proposed and developed new features and improvements, collaborating with a multidisciplined development team.
